

# On the Road to Beautiful *by Charlie Hall*

**Order: V1 - C - V2 - C - B - C – Tag - Ending**

**Verse 1:**

**F**                      **C**  
I crumble at Your kiss and grace  
**F**                      **C**  
I'm a weakling in the dust  
**F**                      **Am**  
Teach me how to cling to You  
**G**                      **G**  
With all my life and all my love

**Chorus:**

**C**                      **Am**                      **Gsus**                      **F2**  
Father come to me, hold me up 'cause I can barely stand  
**C**                      **Am**                      **Gsus**                      **F2**  
My strength is gone and my breath is short, I can't reach out my hands  
**C**                      **Am**                      **Gsus**                      **F2**  
But my heart is set on a pilgrimage to heaven's own bright King  
**C**                      **Am**                      **Gsus**                      **F2**  
So in faltering or victory I will always sing

**Verse 2:**

**F**                      **C**  
And on the road to beautiful  
**F**                      **C**  
My seasons always change  
**F**                      **Am**  
But my life is spent on loving You  
**G**                      **G**  
To know You in Your power and pain

**Bridge:**

**C**                      **G**                      **F**  
You're my portion in this life  
**C**                      **G**                      **F**  
You're my strength now in my fight  
**C**                      **G**                      **F**  
And to You I pledge my heart  
**C**                      **G**                      **F**  
In the pain and in the dark I'll love You  
**F**                      **C**  
I'll love You, I'll love You

**Ending** I'll love You...
