V1 - From wanting to be loved
From wanting to be praised by all
From needing to be first
From finding all my worth in this world
From wanting to be seen
From constant worrying about myself

PC - Deli - ver Me

V2 - From validating words that only
seem to serve a heart that's proud
And all my self esteem,
dressed up in vanity and doubt
From wondering if I am relevant in life, so God

PC - Deli - ver Me, Deli - ver Me

C - Show me what it all looks like
Scribbled on the pages of a human life
Riddled through the ages until we see the light
Breaking all the cages wide open
Every little prison

Em C G

V3 - From fear of letting go
From fear of the unknown ahead
From being overlooked
And so misunderstood again
From fear of being judged
From rumors of a love that fails

C2 - Let every man be more than I
Closer to the truth when I'm set aside
Mostly of no use but when I fall I fly
Breaking all the cages wide open
All these little prisons

Scribbled on the pages of a human life
Riddled through the ages until we see the light
Breaking all the cages wide open
Every little prison
