

# Empty My Hands *by Tenth Avenue North*

**Order: V1 – PC – C – V2 – PC2 – C – B – C - Ending**

**Intro: Am G F (4x)**

**Am F C G**  
V1 - I've got voices in my head and they are so strong  
**Am F C G**  
And I'm getting sick of this, oh Lord, how long  
**Am F C G**  
Will I be haunted by the fear that I believe  
**Am F C**  
My hands like locks on cages  
**G Am**  
Of these dreams I can't set free

**F C G Am**  
PC - But if I let these dreams die  
**F C G Am**  
If I lay down all my wounded pride  
**F C G**  
If I let these dreams die  
**Am F C G**  
Will I find that letting go lets me come alive

**C**  
C - So empty my hands  
**F**  
Fill up my heart  
**Am G**  
Capture my mind with You  
**C**  
Oh empty my hands  
**F**  
Fill up my heart  
**Am G**  
Capture my mind with You  
**Am G F Am G F**  
With You, with You Lord

**Am**                    **F**        **C**                    **G**  
**V2** - These voices in speak instead and what's right is wrong  
**Am**                    **F**        **C**                    **G**  
 And I'm giving into them, please Lord, how long  
**Am**                    **F**                    **C**                    **G**  
 Will I be held captive by the lies that I believe  
**Am**                    **F**                    **C**                    **G**                    **Am**  
 My heart's in constant chaos and it keeps me so deceived

**F**                                    **C**    **G**  
**PC2** - But if I let these dreams die  
**Am**                    **F**                    **C**                    **G**  
 If I could just lay down my dark desire  
**Am** **F**                                    **C**    **G**  
 If I let these dreams die  
**Am**                    **F**                    **C**                    **G**  
 Will I find you brought me back to life

*(chorus)*

**Am**                    **F**                    **C**    **G**  
**B** - Cause my mind is like a building burning down  
**Am**                    **F**                    **C**                    **G**  
 I need Your grace to keep me, keep me from the ground  
                          **Am**                    **F**                    **C**    **G**  
 And my heart is just a prisoner of war  
**Am**                    **F**                    **C**                    **G**  
 A slave to what it wants and to what I'm fighting for

*(Chorus)*

### Ending

Continue **Am G F** to end

With You, with You  
 I need You, I need you my Lord  
 With You, with You  
 I need you now Lord
